

# HOMEOWNERS/RESIDENT MEETING

Southport Levee Early Implementation Project  
Thursday, August 18 at 6 p.m.  
West Sacramento Recreation Center  
2801 Jefferson Boulevard  
West Sacramento, California 95691

Please join us to hear about continuing studies of potential levee improvements near your residence. The West Sacramento Area Flood Control Agency (WSAFCA) is collecting and analyzing data about the levee deficiencies along the Sacramento River in Southport. The data and analysis are shaping several alternative ways to reduce the community's flood risks. This meeting is an opportunity to learn more about the feasible levee improvement alternatives that are presently under evaluation and discuss the next steps in the project development process.

This meeting will address only a specific portion of the six miles of the Sacramento River levee in Southport. You have received this letter because your property or residence is located in this area.

We hope you can attend this important meeting.
